Moreover, Potter's does not clearly show or suggest the gripper having a cable slot and a channel which freely slidably accommodate a cable attached to the cable connector and the device is used for stripping insulation from an electrical conductor and is incapable of gripping only the sidewalls of the cable connector and not the cable to freely slidably go through the channel and the cable slot.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
